

Job Hunter Series

From resumes to applications to interviewing, we offer free workshops that give you the tips and tricks on how to best market your skills to an employer!

[Click here](#) to register!

Interviewing Prep:

Discover valuable interviewing tips and practice answering the difficult questions. You will learn what the frequently asked questions are and the type of answers you need.

Job Search Strategies

Discover effective job search techniques, finding & researching employers, find the hidden job market, and networking tools. This workshop will also help you understand how to manage the stress that affects your job search.

LinkedIn, a Tool for a Professional Job Hunt:

Learn how to bring your LinkedIn account to the next level.

Perfecting Applications:

Discover effective methods for completing online applications. Learn how employers read applications and how to further prepare yourself to meet employer expectations.

Refining a Diamond:

Do you have background challenges? Learn about training/certifications that may make you competitive. This program assists individuals struggling with barriers to employment due to criminal background issues.

Resume and Cover Letter:

Improve your resume with learning different formats, how to write an accomplishment statement, and how to create an effective cover letter.

Skills and Abilities:

Identify your skills, abilities, and interests, and how to market them. Learn how to answer, "Tell Me about yourself." Use the tools from this workshop to assist with your resume and interview preparation.
